QUIT

When you select to play this screen will pop up for you to select difficulty or quit to go back

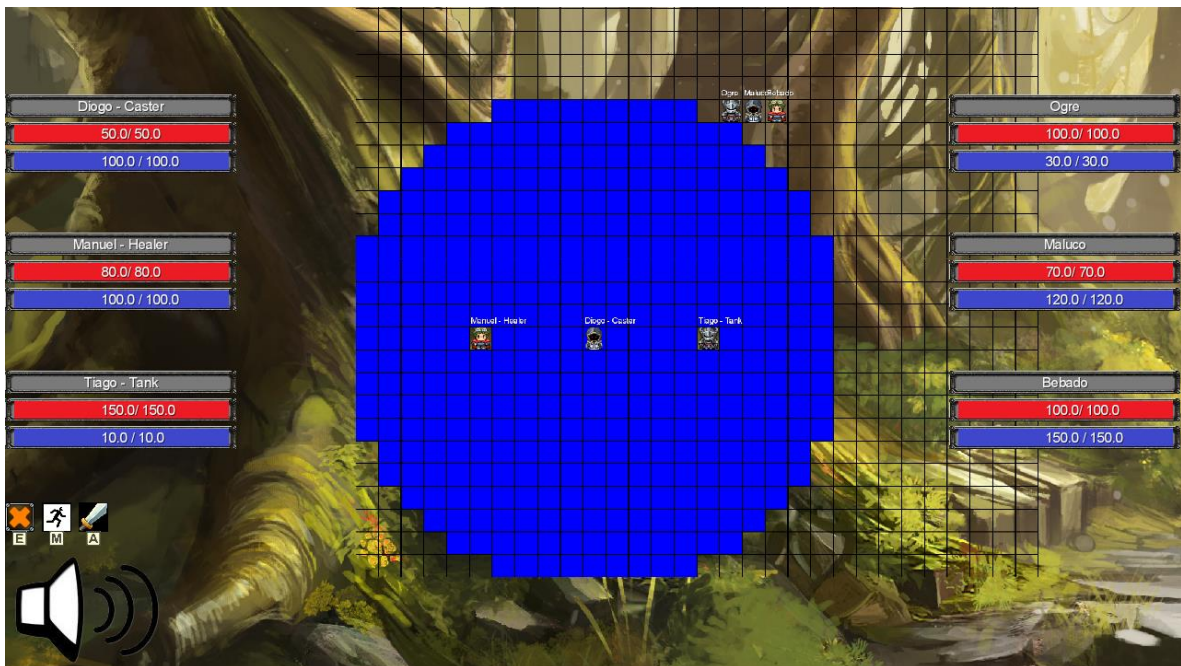

After that you will see this screen with your character , you can press the speaker icon to mute the music and you can see bars with the name of the units and their current HP and Mana.

You can press Page Up To Zoom In

You can press Page Down to zoom out

You can press M to engage movement move then select the cell you want to move to , you can move for as long as you have movements left this turn

You can press A to engage attack mode then press 1 or 2 select the ability you want to use here we pressed 2 to select the Punch Ability ; different abilities have different ranges and other attributes; you can then select one of the red cells to attack it if it has a unit in it. You can only attack once per turn

You can press E to end this units current turn.

Lost the game in 152 seconds. Better luck next time.

QUIT

After you have won or lost you will see a screen telling you that you lost or won and how long it took you , you can then either share that fact on facebook or go back to the main menu with quit.
